

Introducing WGD Consulting, Inc.

WGD  
  
Consulting, Inc.

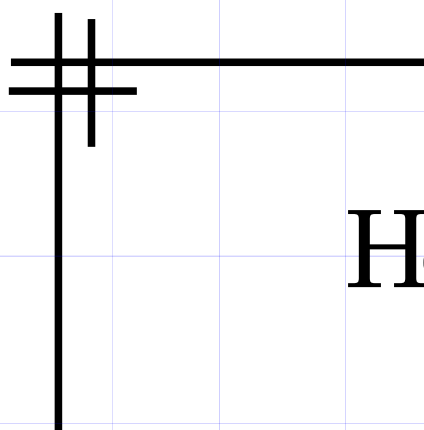

# Background of the Founder Walter G. Davies

- Born and raised in the Bay Area
- Began working in the Silicon Valley in the mid 1990s, into the Gold Rush, for some of the hottest companies
- Moved to Oregon in May 2001 and to Albany in September 2001
- Worked for local software company, then began privately consulting

# Technologies Supported

- Unix and Linux
- Found on most web and email servers, other internal servers
- At the heart of most modern protocols
- Networking
- Inter-office and intra-office connectivity
- Router, switch, and network optimization

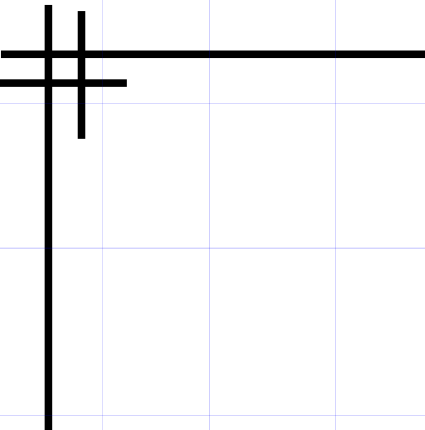

# How does this matter for me?

- Who runs your servers?
- Where is your data?
- What about your web and email?
- Do you support people with these needs?
- Do you need more support for your server management?

# Services we offer

- Onsite and remote server administration
- Server and network performance optimization
- Programming and automation
- Technical support for you company or your clients
- Liaison to your service provider
